

Support Committee Membership

Below are a list of points explaining who can and cannot be a member on the Corps Support Committee:

1. A person must be invited and selected by the committee, by a vote or motion reflected in the minutes of a Support committee meeting. The Support Committee has the right to vote down someone they feel is not suitable to be a member.
2. Representatives of Sponsors are encouraged to be part of the Support Committee as they have a vested interest in how the funds are spent.
3. Community members are also encouraged to be members of the Support committee.
4. Parents are not automatically a member on the Support Committee and should not attend Support Committee meetings unless they are invited to attend as a guest to see if they would like to join. However, they do not have a voice or vote at the meeting until they are approved as a member of the Committee.
5. Paid staff such as CIC Officers and Civilian instructors cannot be members on the Support Committee or League volunteers as this would be a conflict of interest as they cannot serve both the League and DND at the same time.
6. Civilian Volunteers work under the supervision of the CO and are not automatically a member of the Support Committee. However, some Support Committee members are also Civilian Volunteers.
7. Spouses or relatives of the Commanding Officer, should not hold a position of Chairperson or Treasurer on the Support Committee unless there is no one else and then only on a temporary basis until another person can be found to hold that position.
8. All volunteers including members on the Support Committee and Civilian Volunteers must be screened by the League with a photo ID card. See the definition of a Civilian Volunteer versus a League Member.
